# WHY WE DO WHAT WE DO

*INCIGHT is moving the world by expecting great contributions with people experiencing disabilities.*

The mission of INCIGHT (501c3) is: Changing hearts and minds, leveraging obstacles, and unlocking potential. INCIGHT believes in human potential. Unfortunately, for those with disabilities this potential is often locked up due to stigma—a negative and unfair set of beliefs that society holds towards a defined group of people.

INCIGHT aims to build networks, relationships, and provide resources to help those experiencing disabilities leverage their obstacles in successfully contributing to society. Through a variety of strategic programs and services focused on education, employment and independence the results include changing the perspectives and expectations in our community for what's possible.

What if the percentage of employed Americans with physical, neurological or emotional challenges increased by 1%? The Bureau of Labor Stats estimates this could increase the United States' GDP by up to \$25 billion. This is an audacious goal, but it is where our passion, strategy and efforts reside. Let's not just imagine it. Let's Make It Happen!

**INCIGHT would love and honor your partnership.**

CHANGING HEARTS & MINDS. *Leveraging Obstacles.* UNLOCKING POTENTIAL.
